

Chief Project Engineer - Ref. Code 50007315

Your responsibilities

- Providing guidance and support to a team of engineering professionals
- Responsible for the definition of product level requirements within the design organisation
- Developing and performing overall technical planning and providing airworthiness verification support, i.e. management of design and/or technical airworthiness reviews
- Advising on how to resolve technical problems that would affect cost, schedule and aircraft system performance
- Working closely with leadership functions in engineering (Head of Departments) and other subject matter experts for the review and approval of engineering design solutions
- Organising, leading and reporting to the Head of Departments about technical design reviews
- Providing technical leadership across the multi-disciplinary team
- Supporting the development of technical and product roadmaps
- Supporting the Airworthiness review board
- Providing mentorship for technical staff
- Facilitating the continuous improvement of a rapid-turn design-to-specification process
- Supporting the development of design standards and procedures
- Supporting Design to cost initiatives

Your qualifications

- Finished education in Engineering
- Chief Engineering Experience in rotorcraft development and Mechanical Design
- Knowledge in electronic Hardware & Software Development
- Knowledge of EASA Part-21J, CS 27/29 or CS25
- Requirements management

- Solid knowledge in testing of aircraft and components as well as qualifications and certifications
- Aircraft in-service experience
- Excellent English skills, both verbally and in writing, German is a plus

We address an independent specialist with distinctive analytical skills, who wants to take an active role within a small team of engineers. The ideal candidate likes to have contacts with internal and external customers, is able to assume increased responsibility and has a sane portion of assertiveness.

If you are willing to take part in creating the next generation of helicopters in a highly collaborative environment, then you are the right one for our team!

Our offer

We are offering an interesting and unique job opportunity in an entrepreneurial environment with room to grow in every dimension. Our office is located in Wetzikon ZH.
